**Association Management Resources, Inc.  
Partners with Israeli Medical Association – World Fellowship USA**

**Tallahassee, FL** – The Israeli Medical Association–World Fellowship USA chapter (IMA-WF, [www.ima-wf-usa.org](http://www.ima-wf-usa.org)) has selected Association Management Resources (AMR) to provide full service management for the organization. Susan Cabrera, President of AMR, will serve as Executive Director of the IMA-WF USA chapter.

The IMA originated in 1912 with only 32 physicians as The Hebrew Medicinal Society for Jaffa and the Jaffa District and has grown into an organization that impacts medicine worldwide today. Its mission is to promote the professional, scientific and economic affairs of its members. The USA chapter will provide programs for medical professionals in the US with an interest in advancing medical care, here, in Israel, and other countries.

“Our efforts will enhance the experience of physicians and allied health professionals by coordinating programs, membership, financial resources, and public awareness of the IMA-WF USA chapter,” says Cabrera. “We are especially pleased with our partnership because of its positive impact on medicine and patients across the globe.”

AMR is based in Tallahassee, Florida and has a staff of ten. It currently serves eight national, international and regional organizations on a full-service and project basis.

AMR is a member of the Association Management Company Institute, whose 100 members serve more than 1,000 associations with annual budgets exceeding \$364 million.
